DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of claims 15-18 in the reply filed on 5/26/05 is acknowledged. The traversal is on the ground(s) that "the Examiner has failed to establish sufficient reasons for insisting upon restriction, by failing to show that the various claimed species belong to separate classifications or separate fields of search, or have acquired separate statuses in the art. All of the claims in the above-captioned application are drawn to a shield for shielding the interior of an alternator and a method for using the shield to shield the starter pulley cavity of an alternator cover." This is not found persuasive because the method claims involve a step of removing the coil assembly not required in the apparatus of the alternator cover shield claims and the apparatus of the alternator cover shield in claims 1-14 can be used to seal the motor cover shield. In addition, the search required for group II is not required for group I.

The requirement is still deemed proper and is therefore made FINAL.

Allowable Subject Matter

2. Claims 15-18 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter: the record of prior art does not show a method of sealing the starter pulley cavity of an engine alternator cover comprising the steps of: removing the recoil assembly from the alternator cover and mounting a plate on the alternator cover for closing the starter pulley cavity.

Conclusion

4. This application is in condition for allowance except for the following formal matters:

Cancel non-elected claims 1-14.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
